

Local Man Credited With Saving 2 Lives

A Poplar Bluff man, Jerry Kenner, has been credited with saving the lives of two drowning victims Aug. 13 at Keeners Landing on the Black River.

Kenner, who was on a picnic, pulled an 8-year-old girl, who was holding onto a woman, from the river. Kenner and his

wife, Ann, both have cardiopulmonary resuscitation (CPR) training, and revived Louise Reece, 48, who was unconscious when she was pulled from the water.

Kenner is a lab technician at Dexter and had CPR training there.
